

RAINSTICK Sensory Bottles!

What you need to make a rain stick sensory bottle:

1. Large clear water bottles
2. Branches
3. Rice, beans (e.g., pinto, garbanzo, lentil), seeds, sprinkles, sand, salt, sugar, rocks, etc.
4. Tray
5. Bowls
6. Scoops
7. Funnel
8. Adhesive remover (optional) – if there is sticky residue on the water bottles from removing labels.

How to make a rain stick sensory bottle:

1. Remove labels from bottle; wash and dry bottle
2. Set up everything in the tray
3. Insert branches
4. Scoop and pour desired elements
5. Close lid tightly
6. Go explore!
